- G. The Contractor shall notify the governmental entity in writing by certified mail or personal delivery, within 10 calendar days after the Contractor knew or should have known, or any change that materially affects the provision of coverage of any person providing services on the project.
- H. The Contractor shall post on each project site a notice, in the text form, and manner prescribed by the Texas Workers' Compensation Commission, informing all persons providing services on the project that they are required to be covered, and stating how a person may verify coverage and report lack of coverage.
- I. The Contractor shall contractually require each person with whom it contracts to provide services on a project, to:
 - 1) provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, that meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all of its employees providing services on the project, for the duration of the project;

 - b) a new certificate of coverage showing extension of coverage, prior to the end of the coverage period, if the coverage period shown on the current certificate of coverage ends during the duration of the project;
 - 5) retain all required certificates of coverage on file for the duration of the project and for one year thereafter;
 - 6) notify the governmental entity in writing by certified mail or personal delivery, within 10 calendar days after the person knew or should have know, of any change that materially affects the provision of coverage of any person providing services on the project; and

7) contractually require each person with whom it contracts, to perform as required by paragraphs (a) – (g) with the certificates of coverage to be provided to the person for whom they are providing services

- J. By signing this contract, or providing, or causing to be provided a certificate of coverage, the Contractor is representing to the governmental entity that all employees of the Contractor who will provide services on the project will be covered by workers' compensation coverage for the duration of the project, that the coverage will be based on proper reporting of classification codes and payroll amounts, and that all coverage agreements will be filed with the appropriate insurance carrier or, in the case of self-insured, with the Commission's Division of Self-Insurance Regulation. Providing false or misleading information may subject the Contractor to administrative penalties, criminal penalties, civil penalties, or other civil actions.
- K. The Contractor's failure to comply with any of these provisions is a breach of contract by the Contractor that entitles the governmental entity to declare the contract void if the Contractor does not remedy the breach within ten calendar days after receipt of notice of breach from the governmental entity.

LETTER AGREEMENT AND RIGHT OF ENTRY
FOR SIGHT VISIBILITY EASEMENT

Mr. Michael Olivier
1916 Honeybee Lane
Leander, Texas 78641

September 11, 2015

Michael,

As requested and discussed previously, this letter formalizes the scope of the work to improve visibility at the intersection of Crystal Falls Parkway and Honeybee Lane, specifically on the northeast corner, on your property, 1916 Honeybee Lane, Leander, Williamson County, Texas (the "Property"). The City of Leander, Texas (the "City") is seeking to increase the line of sight for traffic turning onto Crystal Falls Parkway from Honeybee Lane. By this correspondence, the City is requesting you convey to the City a visibility easement for the benefit of the public and grant permission for the City and its authorized agents and contractors to enter your Property for the limited purposes detailed herein.

By signature below, you, Michael Olivier, agree that in consideration of \$10.00 paid by the City and other good and valuable consideration promised and stated herein, the receipt and sufficiency of which is hereby acknowledged, that the City, its agents, contractors and assigns, shall have a limited right of entry onto the Property for the purposes stated below and as further consideration, shall convey to the City a sight visibility easement (the "Easement"), in a form substantially similar to that enclosed herein.

In order to complete the improvements, the City will need to access your Property to conduct the following actions:

1. Removal of the existing 6 feet high privacy fence adjacent to Crystal Falls Parkway and any trees, shrubs or vegetation necessary to maintain a clear, unobstructed view. No trees, if any, shall be removed without prior consent.
2. Installation of a new "stockade" type fence at no expense to you. The City will hire a contractor to install a new fence that matches the attached pictures and detail. The fence will be approximately 70 feet long and nearly identical to the one recently built nearby at the elevated water tank site on Wigwam Drive, except it will be 6 feet instead of 8 feet high. This new fence will be located approximately 10-12 feet further from Crystal Falls Parkway to allow better visibility for vehicles turning onto Crystal Falls Parkway from Honeybee Lane. The contractor will also shorten your deck that is close to the existing fence to make room for the new fence. The new fence will be an extension of the existing stockade fence behind your lot and will generally follow the same alignment on your Property. As discussed, the City will also pay the contractor to replace approximately 60 feet of your right front privacy fence to match the fence on the left front side of your house.
3. The City will hire a licensed surveyor who will need access onto your Property to prepare a visibility easement document (the "Easement"). The Easement will

**LETTER AGREEMENT AND RIGHT OF ENTRY
FOR SIGHT VISIBILITY EASEMENT**

restrict the placement of any plants, trees or other objects within the Easement area that could adversely affect visibility at the intersection of Crystal Fall Parkway and Honeybee Lane. The Easement document will be filed in the Williamson County property records. A copy of the survey proposal to prepare the Easement is enclosed as well as a draft of the Easement. Once the survey is complete, a metes and bounds description and sketch will be incorporated into the Easement document and a final version will be presented to you for your review and execution. In order to maintain the intersection improvement project schedule, please deliver to the City an executed Easement within 7 days of receipt.

4. Other reasonable and necessary actions required to complete the intersection improvements.

The City anticipates completing the intersection visibility improvements within 60-90 days of receipt of the executed Easement. I believe this Letter Agreement accurately reflects our prior communications and project plans. If you would like to discuss any aspects further, please do not hesitate to contact me.

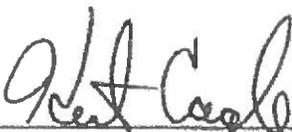

Sincerely,

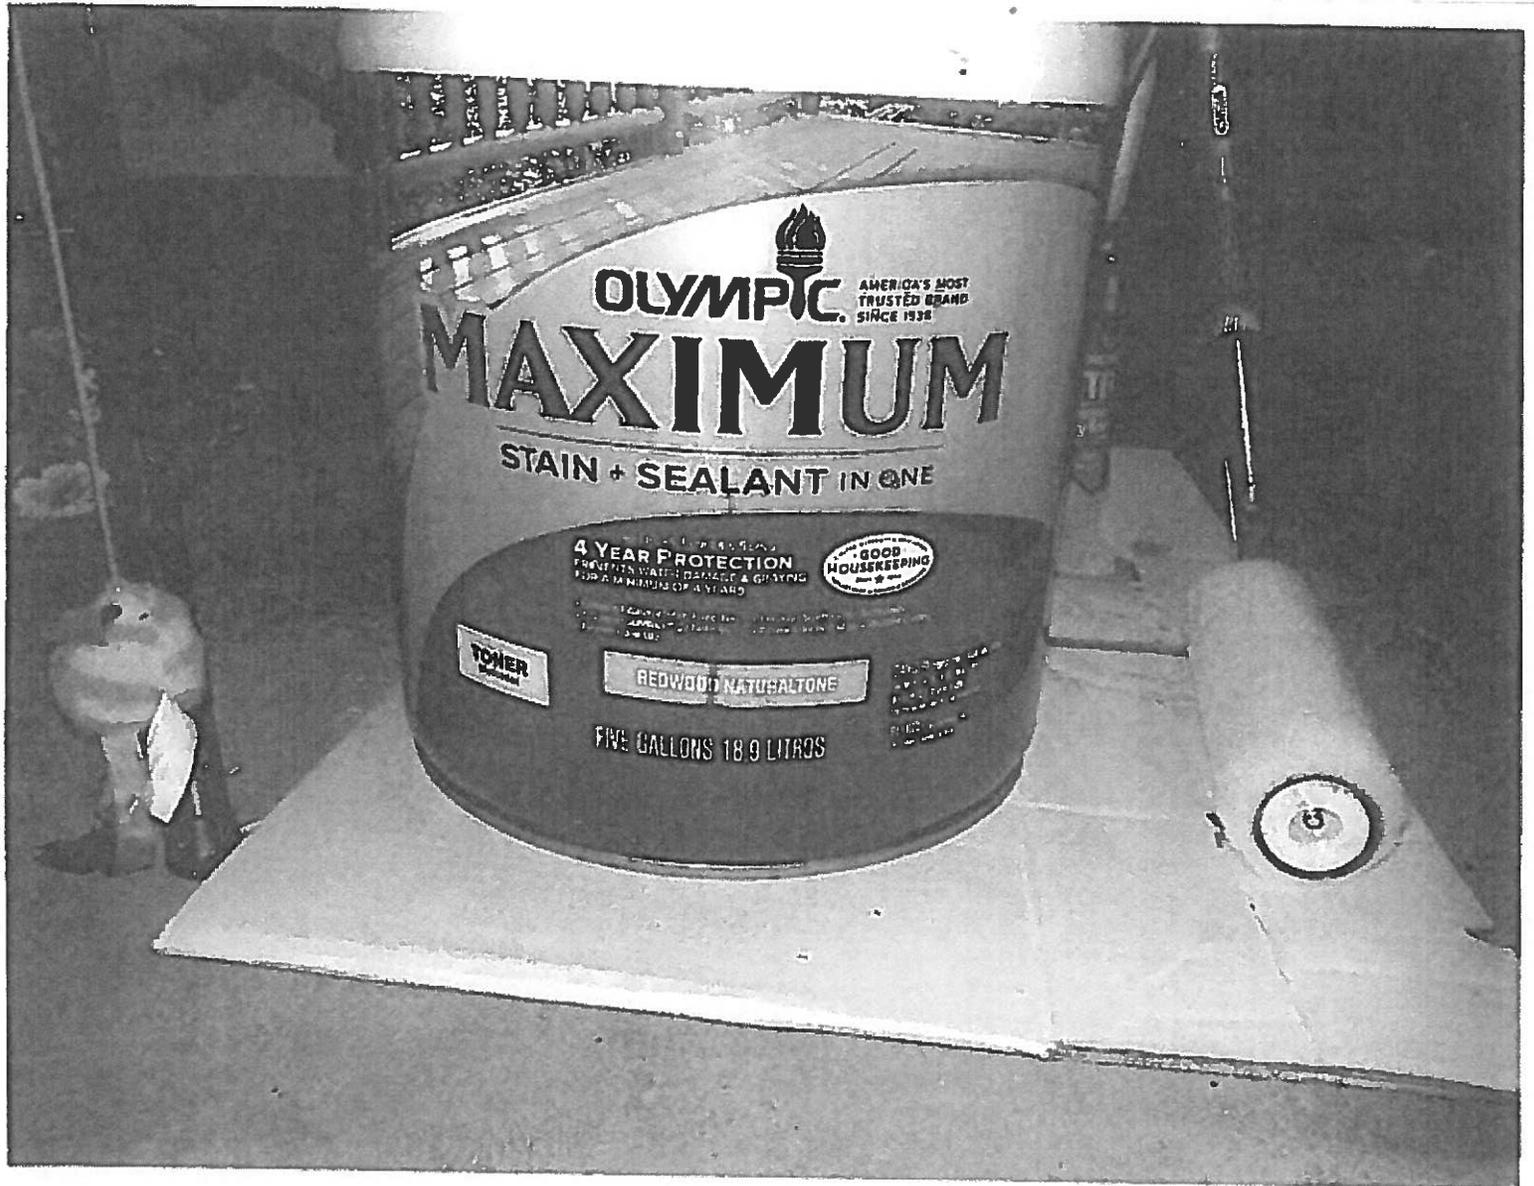

Pat
Patrick A. Womack, P.E.
Public Works Director
