

# 2014 SPRING DAY CAMPS LEANDER PARKS AND RECREATION

## SPRING 1 - FEBRUARY 3-5, 2014

### **9am - 12:15pm (1st-5th Grade) Creative Writing and Illustrations \$70.00**

The three day enrichment camp will help student-writers venture into themes that excite them exploring new ideas about writing, illustrating and sharing stories. A variety of fun exercises will explore characterization, setting, imagery, plot and more as we create a one of a kind illustrated story. The days include fun games, time outdoors (weather permitting) and at the end, a celebratory reading open to friends and family. Finished pieces can be formatted for print in a 5" x 7" soft cover book (available shortly after the camp per camper request for an additional \$10...Shipping included)

### **1pm - 4:15pm (1st-5th Grade) Art and Movie Making - \$70.00**

We'll explore how Art is a vital part of all movie making through teamwork, conceptual ideas "team brainstorming", storyboarding, prop making and production. We'll be reviewing a short story, casting a crew, storyboarding it and planning our production. On our final day we'll perform a short movie production! All campers will receive an edited DVD of our movie production to enjoy shortly after the camp via mail. (Shipping included) Jones of Art Production Crew wants you!

### **9am-4:15pm (1st- 5th Grade) Both Sessions - \$140.00 (must bring a lunch)**

## SPRING 2 - MARCH 10-13, 2014

### **9am - 12pm (Ages 5-7) Pre-Engineering using LEGO® - 125.00**

Let your imagination run wild with tens of thousands of LEGO®! Build engineerdesigned projects such as boats, bridges, mazes and motorized cars, and use special pieces to create your own unique design! Explore the endless creative possibilities of the LEGO® building system with the guidance of an experienced Play-Well instructor. This is an ideal way to prepare young builders for the challenge of Engineering FUNDamentals.

### **1pm-4pm (Ages 8-12) Engineering FUNDamentals using LEGO® - \$125.00**

Power up your engineering skills with Play-Well TEKologies and tens of thousands of LEGO®! Apply real-world concepts in physics, engineering, and architecture through engineer-designed projects such as arch bridges, skyscrapers, motorized cars, and the Battletrack! Design and build as never before, and explore your craziest ideas in a supportive environment. An experienced instructor will challenge new and returning students to engineer at the next level.
