

# KNOX-BOX® Residential Program

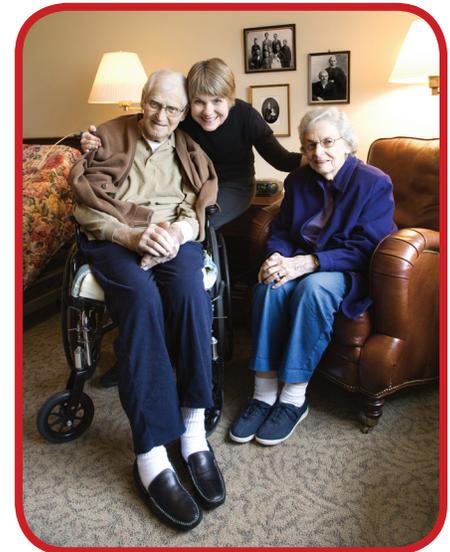

When a medical emergency strikes, help is only a call away. However, for those who live by themselves or who have special mobility issues, what happens when they can't get to the door to let first responders in?

## The Knox-Box® Residential Program is ideal for individuals:

- With a history of medical problems
- Recuperating from a hospital stay
- Living alone
- Using an electronic calling/medical alert service
- Seasonal Residents

The Knox-Box® Residential Program enhances the Fire Department's response times. A residential Knox-Box not only allows responders to enter a home unassisted, it also prevents forced entry damage and added stress to the patient.
