In an ongoing effort to beautify Old Town, the City of Leander is reconstructing and widening a section of N. Brushy Street between South Street and Broade Street. This project also includes development of parallel parking, street lights, sidewalks, landscaping, street furniture and signage.

Construction will start in the next few days and is expected to finish by the end of the year. The city will work to minimize negative impacts to businesses and residents as traffic along N. Brushy Street will be impacted, and the roadway will be closed to through traffic for limited periods of time.

Look for project updates on the following web page:
https://www.leandertx.gov/BrushySt2018

The improvement of Brushy Street is considered a short-term priority in the city’s comprehensive plan because it (1) promotes Old Town as a civic and cultural destination; (2) promotes walkability within Old Town; and (3) develops and implements streetscape projects within Old Town.
